I nuovi Core i3 saranno affiancati da un chip grafico

Su Expreview sono state pubblicate le Roadmap Intel e qualche informazione in più sui futuri Core i5 e Core i3. Core i5 sarà una cpu a 4 core senza il chip grafico mentre nel Core i3 i due core a disposizione saranno affiancati da un chip che si occuperà della parte grafica.

Intel Xeon Enterprise Roadmap

	2009	2010+
 Expandable 7000 Sequence		Boxboro-EX Platform* Nehalem-EX Processor* 32nm Westmere Based Processor Boxboro-EX Chipset
 Efficient Performance 5000 Sequence	Tylersburg-EP Platform Nehalem-EP Processor Tylersburg & Dual-IOH Chipsets	32nm Westmere Based Processor
 Entry 3000 Sequence	Foxhollow Platform Lynnfield Processor Intel 5 series Chipset	32nm Clarkdale Processor**

**32nm Upgrades Across All Intel® Xeon® Segments:
Entry (EN), Efficient Performance (EP) & Expandable (EX)**

All dates, product descriptions, availability, and plans are forecasts and subject to change without notice.

* Targeted for production in 2H'09
** Client branded product supported for servers

Future Intel® micro-architecture codename Sandy Bridge
