

Catalyst 7.8 vs 7.9

LINK (<https://www.nexthardware.com/news/schede-video/169/catalyst-78-vs-79.htm>)

Ecco a voi un articolo che compara le prestazioni di queste due release di driver di AMD

Ricordiamo, dalle release notes, gli incrementi di performance introdotti dai Catalyst 7.9 dichiarati da AMD:

â€œ **Performance Improvements**

Far Cry performance improves up to 14 % on the ATI Radeonâ„¢ HD2900XT CrossFireâ„¢, ATI Radeonâ„¢ HD2600XT single card, and ATI Radeonâ„¢ HD2400XT CrossFireâ„¢ configurations

Call of Duty 2 performance improves as much as 12% with Anti-Aliasing enabled on the ATI Radeonâ„¢ HD2600XT CrossFireâ„¢ and single card configurations

Quake 4 performance with Anti-Aliasing improves 9% or more on the ATI Radeonâ„¢ X1600/X1650Pro and ATI Radeonâ„¢ X1300/X1550 products in both single and CrossFireâ„¢ configurationsâ€.
