Intel Chipset Software Installation 9.1.1.1019 WHQL del 18 agosto 2009

Features Added in PV 9.1

1 Added support for Intel↔® 5 Series Chipsets

2 Added support for Microsoft Windows 7*

Issues Resolved in PV 9.1

1 Fixed issue introduced in 9.1.1.1016 that caused INFs not to be installed on x64 bit OSs

2 Fixed issue where 2008 Server R2 was pulling INF from â€œAllâ€ Directory. This was fixed to pull from â€œWin7â€ directory

3 Fixes yellow bang issues where NO DRV filter was removing INFs that needed to be loaded

4 Removed the â€œVistaâ€ directory. The â€œAllâ€ directory contains all necessary INF for supported Oss

5 Fixed issues related to â€"overall switch
