

## Thermalright HR-07 Duo

**LINK (<https://www.nexthardware.com/news/raffreddamento-aria/306/thermalright-hr-07-duo.htm>)**

Thermalright rinnova il suo dissipatore per moduli DIMM

Si tratta di una soluzione molto simile al predecessore, ma caratterizzato dalla presenza di due heat pipe su ciascun versante del modulo DIMM.

### Caratteristiche:

- Double heatpipes to double heatsinks for fast and efficient coolin
- Proprietary through holes on every fin for efficient ventilation in passive mode
- Vast compatibility across multiple types of memories
- No tools needed for an easy installation keeping manufacturerâ€™s warranty in tact without voiding it
- Supports Dual Channel Mode. Option to install on all four memory slots.
