

## AMD Catalyst Software Suite 11.4

**LINK (<https://www.nexthardware.com/news/schede-video/3567/amd-catalyst-software-suite-114.htm>)**

Disponibile per il download l'ultima release dei driver AMD per schede video Radeon HD.

AMD ha rilasciato ieri la versione 11.4 WHQL della Catalyst Software Suite che introduce le novità che elenchiamo di seguito.

↔

### **New Features:**

#### **Enhancements to the AMD VISION Engine Control Center / AMD Catalyst Control Center**

- New task based Display Management controls
  - Simplifies the configuration of displays and display settings
- New Eyefinity setup group
  - Setting up an Eyefinity group has never been easier
- AMD Catalyst update notification (found within the Information Center)
  - This feature notifies users that new AMD Catalyst software packages are available↔

#### **GPU Compute enhancements:**

The OpenCL runtime (included in AMD Catalyst 11.4) includes performance enhancements supporting zero-copy on APUs and increased performance for PCIe transfers between a CPU and discrete GPU.

#### ↔ **Performance Enhancements**

A number of performance enhancements are seen with the AMD Radeon HD 6900 Series and AMD Radeon HD 6800 Series:

- Call of Duty Black Ops " gains of up to 15% with Anti-Aliasing and Anisotropic Filtering on single GPU configurations.
- Battleforge " gains of up to 15% with Anti-Aliasing and Anisotropic Filtering on single and multiple GPU configurations.↔
- Batman Arkham Asylum " gains of up to 20% with Anti-Aliasing and Anisotropic Filtering on single and multiple GPU configurations.↔
- Aliens vs. Predator " gains of up to 8% with Anti-Aliasing and Anisotropic Filtering on single and multiple GPU configurations.↔
- Civilization 5 " gains of up to 15% on single and multiple GPU configurations.↔
- Far Cry 2 " gains of up to 6% on single and multiple GPU configurations.↔
- Just Cause 2 " gains of up to 9% on single and multiple GPU configurations.↔
- Lost Planet 2 " gains of up to 10% on single and multiple GPU configurations.
