Disponibile una nuova linea di pompe per sistemi di raffreddamento a liquido ancora più efficienti.

EK Water Blocks ha lanciato ufficialmente una nuova linea di pompe per watercooling ad alte prestazioni Laing D5 e DDC, completamente prodotte e assemblate in Europa.

La nuove soluzioni Laing (ora Xylem) offrono prestazioni migliorate di un 15% sia per il modelli D5 Vario che per i modelli DDC 3.25 e 3.2 PWM e sono offerte in abbinamento a top e vaschette sia single che double bay da 5.25".

A partire dal 5 agosto, inoltre, sono disponibili anche le vaschette accessorie da abbinare alle precedenti pompe Laing appartenenti alla stessa serie.
