

Computex 2008 - Intel X58

LINK (<https://www.nexthardware.com/news/schede-madri/657/computex-2008-intel-x58.htm>)

Prime schede madri con chipset Intel X58

Il Computex 2008 è l'occasione per alcune aziende di presentare alcuni sample delle future schede madri basate su chipset Intel X58.

Il nuovo chipset sarà il supporto naturale per le cpu Bloomfield, versione desktop dei processori Nehalem, con south bridge ICH10/R .

L'uscita è prevista per fine 2008.
